Accompanied activities:

SONEX Forum

The Forum is a major activity of this event and it is arranged to be in conjunction with up-to-date technology and with exhibiting sectors; it is contributed to solar technology, the Energy and Energy Efficiency Forum.

The Forum concentrates on the huge demand and trend for using the solar energy in different applications: PV Solar Applications in electrical generation; Solar Cooling Systems, Solar Heating Systems, challenges of the renewable energy and energy efficiency in water and industries. This Forum will be organized also in cooperation with official organizations and institutes.

His Excellency Dr. Mohammad Mousa Hammad the Minister of Energy and Mineral Resources has opened the event with presentation for one hour clarifying the plans of the ministry for the solar plants and regulations. After the speech, His Excellency has visited all exhibitors and discussed their concerns.

According to H.E. The Minister of Energy and Mineral Resources, more than 600MW Solar IPP Projects will be built in the following years among 2000 MW renewable and Oil Shell plants.
